POWERFUL WOMEN IN DESIGN:

A conversation with women on
redefining how fashion plays a
role in every aspect of our lives

From a digital-first company redefining the home linens category with fashion-forward collaborations, to luminaries in the interiors and architectural worlds who are bringing a couture sensibility into their projects, the intersection of fashion, lifestyle and interior design has never been more explored.

Join the Decorative Furnishings Association at Gracie to hear three very powerful perspectives on how fashion has become more than just about clothes - it's how we express ourselves through design in our homes and lives in a post-pandemic world.

Join Liz Eichholz, Co-Founder of Weezie, Lonni Paul, Interior Designer, Meredith Xavier, Founder of The Ligné Group and May Sung, Principal & Founder, SUBU Design Architecture for a spirited discussion moderated by Interiors Editor-in-Chief Erica Heet.
